How to use the catalogue

All entries in this catalogue are held in the collection of the bfi National Film and Television Archive with the exception of titles in appendix 1. Titles in square brackets[] are titles supplied by later cataloguers because the originals have been lost. Viewing copies are marked ‘vc’ and the footage given relates to that print. Many early film prints are incomplete, in which case every effort has been made to indicate this. For films that have not yet been fully catalogued this data may not be present. All prints are 35mm unless indicated. Those marked ‘vc’ for viewing copy can be viewed at the British Film Institute’s Stephen St premises. Please see our website www.bfi.org.uk/nftva/rvs.html for details. Nitrate viewing copies are subject to certain viewing restrictions.

The catalogue is divided into 4 basic categories as follows:

A. Films of music hall artistes where performances have been recorded more or less directly on film [for example the early sound on disc films such as BILLY MERSON IN HARRY LAUDER BURLESQUE a direct to camera performance spoofing another music hall personality]. This category also includes actuality film involving music hall personalities.

B. Films featuring music hall artistes in comedies or dramas made as original works for the Cinema [for example: DON QUIXOTE (1923) featuring George Robey in a semi-straight role as Sancho Panzer]. This section also includes films that contain elements common in works such as the pantomime and popular theatre [for example: PIMPLE IN THE WHIP (1917) a spoof on the theatrical spectacular, THE WHIP. The Fred Evans (Pimple) spoof is clearly in the style of a music hall skit].

C. Films based on specific music hall sketches or plays. As well as British films, this will include a small selection of foreign renditions of those pieces originating in this country [for example: Lupino Lane’s film ONLY ME (1929) based on the Fred Karno music hall sketch Mumming Birds].

D. Fictional films about the music hall of that era (i.e. up to 1930) but made later [for example: TROTTIE TRUE, CHAMPAGNE CHARLIE, SAY IT WITH FLOWERS etc.] Also, rare examples of Music hall sketches from 1895–1930 made into later comedies [for example The BAILIFFS (1932) based on a scenario by Fred Karno and featuring himself in a cameo role]. This category has been included for illustrative and historiographical reasons.

The participants race back down the other end to where a crowd is gathered. vc 43ft.

pc unknown
ph, Arthur Cheetham.

A seaside minstrel show, this film shows E.H. Williams' 'Merry Men', performing two sketches on a small outdoor stage in front of a wooden hut at Rhyl, Wales. Eight comedians in black face perform a minstrel comedy sketch, dressed as schoolchildren harangued by a schoolmaster. The troupe then perform as black-faced minstrels, wearing striped jackets and white flannels, with ten sitting in line on chairs, while two perform a dance routine in front of them. The two minstrels (the cornermen) on the ends of the seated line both hold tambourines. vc 35mm 141ft

Note: Pierrot or Minstrel shows were traditional seaside entertainments and might feature artistes on tour while the London halls were closed during summer. The name of the troupe is written on the roof of a large hut with admission prices and directions for the location of the performance if it rained. This would indicate that the show was well established as a beach attraction.

[HERBERT CAMPBELL AS LITTLE BOBBY] (1899)

pc. British Mutoscope and Biograph Company

Herbert Campbell filmed in the Biograph studio which was situated at that time on the Thames Embankment. Campbell is dressed as 'Little Bobby' for the 1899-1900 Drury Lane pantomime, 'Cinderella'. Note: The British Biograph Company filmed celebrities from the theatre and s. They exhibited their films nationally, with their flagship show at the Palace Theatre of Varieties on Shaftesbury Avenue, which is still operating today showing Andrew Lloyd Webber musicals. Campbell was frequently partnered with Dan Leno, probably the best known of all artists, and made some other films with him which are now sadly lost. Campbell was a large man hence the comedic juxtaposition of him as a child. The film is operating on several levels, as a news item, as an advert for the pantomime and as a ‘facial’ comedy.

He was also a writer, he co-wrote the farce 'Tons of Money' which was filmed in 1924 starring Leslie Henson. He imitates the dancing girl in tutu; runs away from an approaching express train and becomes annoyed when he sees himself flirting with a milkmaid. vc 19ft. (vc incomplete).
Note: as there were no purpose-built cinemas at this time the scene would presumably have taken place at a fairground cinematograph or in a . Also used as device to instil sense of superiority in audience who were not so naive.

Fragment of a water spectacular, possibly of ‘Tally Ho!’ staged at the London Hippodrome in 1901, shortly after it’s opening. The camera is facing the stage with the water tank in the foreground, and with a walkway in between the tank and the stage. A melodrama is being enacted on the stage. There is a fight with muskets firing indicated by puffs of smoke. Two mounted soldiers ride down walkway and plunge into the tank. A carriage and four drives down the walkway led by man. The two front horses plunge into tank followed by the other two. The walkway collapses into the tank and water pours down from the ‘hill’ washing down the ‘bridge’ with bits of wood, flotsam and jetsam. vc 87ft.
Note: This is the only film of a music hall taken indoors during this early period. Identification of the stage show and venue are unconfirmed pending further research – the story in this sequence doesn’t match contemporary descriptions of the scenario of Tally Ho! But these are certainly Hengler’s famous ‘plunging horses’, a famous circus act adapted for the hippodromes.

dance. Enter Pantaloon and Clown (in traditional Grimaldi clown costume). Harlequin
waves his magic wand or 'slapstick' to make a crate appear in their hands. They put him

the word "Sausages". The butcher emerges from his shop and a melee ensues involving
him, Pantaloon and Clown, Harlequin and a police constable, using as weapons the legs
of meat hanging outside his shop. The butcher is put into the crate and minced into a
string of sausages, which appear from the side of the crate. The final tableau shows

The camera shows a view of the Britannia Theatre, the most famous of all the East End music halls, from across Hoxton Street in Shoreditch. The streets are crowded with people who would typify the audience for the Britannia and include a group of small boys waiting in line outside the theatre. A range of vehicles passing by include a Midland Railway Company delivery cart going past the town-hall, trams and a mixture of motor and horse-drawn vehicles. The camera passes down Old Street and passes by Charles Square. A tram goes by 'The London Apprentice' public house and the tower of St Leonard's Church, Shoreditch. vc (367ft).

The De Forest Phonofilms
In 1922 Lee de Forest developed the Phonofilm, a system for recording synchronized sound directly onto film stock. From 1925 the De Forest system was operating under licence in England. The Phonofilm was used to record stage performances such as music hall turns, light opera, recitations, and a range of musical acts. The problems of maintaining synchronisation over longer running films meant that the system did not effectively compete with systems for silent film features. The arrival of other sound on film systems created stiff competition between rival manufacturers. The De Forest system was not, ultimately, one of the survivors.

The use of the wand to transform or reverse character types was frequently employed and would have been understood by the audience as a familiar contrivance. The advantage of the film version was in its ability to employ trick photography rather than the less convincing stage trickery.

The villain follows him to a secret trial of The Whip (represented by a pantomime horse). At Madame Tussaud’s Lord Elpus and the heroine see wax figures of Von Tirpitz, the Kaiser (a pig), Von O’Clock and Charles Peace. The villain locks Elpus inside, but he escapes with the help of a genie from Aladdin’s lamp. Elpus, cycles after a train containing The Whip. As he is releasing the horse the train behind crashes into the carriage too soon, and the scene has to be repeated twice before Elpus rescues The Whip, only for the train to crash into them both. At Newmarket Lord Elpus himself rides The Whip in the race (the other competitors also being
pantomime horses) and seems certain of victory when The Whip throws him just before
the winning post and refuses to move any further. vc 1302ft.

TRIPPS AND TRIBUNALS (No. 2 of THE BLUNDERS OF MR BUTTERBUN SERIES)

d. Fred Rains
cast. Lupino Lane, Fred Rains
Mr Butterbun receives a request to lead an appeal tribunal for WW1 conscripts and
rushes off (after much business getting dressed). The Board is shown at work judging the
conscription appeals of comic characters who attempt to fool or bribe them with the usual
excuses being too old, too young, engaged on important war work, widowed mothers to
care for etc. Chaos ensues and the Board members go off to the races and subsequently
go to a restaurant and ring up a huge bill on champagne and are kicked out. Mr
Butterbun goes home very drunk to face his angry wife. vc 1708ft.
Note: this is one of only two surviving episodes of this series of 9 two reel comedies,
mostly a vehicle for Lupino Lane who was already well established as a star of the halls
in sketches, musical comedy and pantomime. This is indicated by the opening
simultaneous inset of Lupino as himself and as Mr Butterbun. The series was issued as
part of the Kinekature Comedies which exploited a patent gimmick which distorted the
film image for comic effect. The transformation was often triggered by a device such as a
magic ring in the same style as other such pantomime devices including Alf's Button.

cast: George Robey as Clown,  
Traditional Harlequinade with George Robey, in a pantomime played against a backcloth depicting a street scene with shops. The characters play tricks on the infuriated shopkeepers and their customers starting with the bill poster, a man carrying a load on his head, the butchers, a lady with a baby (which is replaced with the traditional sausages and turns into a baby pig. At the draper’s there is some comic business with the dummies before they move onto the butcher’s again, doing the Indian Rope trick with the string of sausages before falling off on to Policeman. Harlequin and Columbine are continually dancing across the stage. Harlequin blacks out the backdrop and the film ends with a Happy New Year message painted by Clown and Pantaloon. The four characters bow before the fallen curtain. Nitrate vc 356ft. (a longer reel of rushes exists as a master print, 855ft).  
Note: this appears to have been filmed in a real theatre as the film shows some of the stage trap doors commonly employed by pantomime. The film also employs filmic tricks such as stop motion, disappearing items etc. We also see Robey acting the throwing of sweets to the audience (presumably children).
